

W02-1: Story map with ArcGIS Online

It's time to actually produce your first story map using ArcGIS Online. After completing this work-sheet you will have produced your first story map. The topic of the story map will be the volcanic eruption of the Pico Pequeno on Fogo in 2014.

Things you need for this worksheet

- [ESRI StoryMaps](#) as part of ArcGIS online, ESRI provides an app for easily creating story maps. As the time of this writing, non-commercial user accounts are free of charge. Please double check the present licensing information prior to using ArcGIS online for creating story maps using a free account
- As the time of this writing, we recommend to use **Google Chrome browser** for a stable working with Story Maps by ESRI.
- [M02-1: Creating a Story Map Journal \(ESRI\)](#)
- [M02-2: Pico Pequeno eruptions 2014](#)

Learning log assignments

Log in to [ESRI story maps](#) using your ArcGIS Online account from Goethe University which you have received from the course admin. After login, please update and change your user profile

Visit [ESRI story maps](#), login and select "Build a map journal" in order to be redirected to the editor.

Read the material [M02-1: Creating a Story Map Journal \(ESRI\)](#)

Create a story map with the texts, pictures, maps and videos provided in material [M02-2: Pico Pequeno eruptions 2014](#).

If you experience problems while trying to produce your story map, see [M02-1: Creating a Story Map Journal \(ESRI\)](#) or ask out tutors.
