Tell us about your professional and work experiences

What are your former apprenticeships, occupations, and work experiences (if applicable)?

Professional details: English skills

Now allow us an insight into your English skills.

English language skills in speaking

- fair good very good

English language skills in reading

- fair good very good

English language skills in writing

- fair good very good

Are you a holder of a certificate in English language?

- yes no

If yes, which certificate do you have?

Professional details: Geospatial Technologies

Please summarize your experiences with the elements of GeoTraining. You find the descriptions of these elements at our homepage (<http://geotraining.geodu.org/doku.php?id=en:courses:description>).

To answer, follow this guideline:

1. What skills in statistics do you have?
2. What are your experiences and skills regarding geospatial technologies?
3. Did you work or research with environmental and remote sensing data?
4. Did you work or research with geospatial technologies?
5. Did you work or research the field of biodiversity, ecology or conservation?
6. If applicable, please state any related trainings completed as well as other relevant skills and qualifications.

Your experiences with geospatial technologies: **(550 characters incl. blank spaces)**

Research proposal

Present a proposal of the planned master-thesis/PhD-thesis. This project description is your opportunity to present your research project to the GeoTraining selection committee and to awaken interest in your project. The project description should provide an overview of your project at the present time, but should be no more than 6.500 characters with spaces maximum.

Please follow this guideline regarding formal requirements to structure your proposal:

1. Name the degree you wish to attain and the area of research.
2. Topic
3. Research question(s)
4. Research aim and relevance
5. Methods of data collection and data analysis
6. Summarize of results (if you already have)

Your proposal **(2200 characters incl. blank spaces)**

Motivation

Why do you want to attend the GeoTraining Program on Environmental and Remote Sensing Data Analysis via Geospatial Technologies in Research and Teaching?
Write a "Letter of Motivation".

Your "letter of motivation" **(550 characters incl. blank spaces)**

Please note: The online application portal runs an automatic counting of characters. Please keep your writings to the maximum allowed numbers of characters! Violating the specified maximum number of characters means that exceeding characters are deleted automatically.

Are you ready for applying?

Is your application complete?

I certify that the information provided in this application is accurate to the best of my knowledge. Furthermore, I agree to inform the GeoTraining programme coordination office via e-mail at questions@geotraining.geodu.org immediately of any changes and amendments. I have taken note of the information provided in and regarding this application, as well as the notice about the storage of personal data. Due to European Union law and German law as well, I authorize the GeoTraining programme coordination office at Goethe-University Frankfurt to store my personal data as well as to share it with related third parties (e.g. DAAD, Hostels, Travel Agencies) if necessary as part of the arrangement and execution of the GeoTraining summer school 2020. I accept responsibility for the completeness of my application. I agree that this application and accompanying documents and data shall remain with Goethe-University Frankfurt. Up to 30 candidates will be selected. The selected candidates will be informed about the results of the selection meeting after 30th of April 2020.
