

H02: Service-Learning (Hungry Minds)

In this session you will be introduced to the experience-based learning approach outlining the relevance of action and reflection for academic teaching and learning. One common approach of experiential learning is service-learning (SL) that combines students community service action with academic learning. It focuses on critical, reflective thinking and civic responsibility. We will start with a general description of the SL-approach. We continue with some practical examples.

Things we cover in this session

- Overview of experience-based learning in context to Service Learning, citizen science and portfolio
- Relevance of acting and reflecting
- Discussing goals, chances and challenges of Service Learning
- Focusing practical examples

Things you need for this session

- [W02-1: Conceptualizing a Service Learning project](#)

Things to take home from this session

At the end of this session you should

- understand the relevance of acting and reflecting in higher education didactics
- know the learning method Service Learning in context to your own field of study and research.
