M03-1: Course Development

Our GeoTraining Course Development Toolkit offers you some useful and ready-to-use materials to start designing own learning environments at your university in the future. It is a collection of separat templates and guidelines as well as learning materials and contents from the lessons you have taken in Module 4: Higher education didactics.

Here we go!

Issues on Learning Outcomes

- Writing Learning Outcomes
- Learning Outcome Verb List
- How to Ask Questions that Prompt Critical Thinking

Issues on Course Development

- Course Road Map for editing
- Template Lesson Planning for editing

- M03-2: Four Principles for Creating Problem-based Learning Environments

Methods for Large & Small Group Teaching

Note: *Since there is a lot of online content on the issues of teaching large & small groups available, we have collect some examples below*

- Teaching Toolkit

General Issues an Semester Organization

- Checklist Preparing a New Semester
- Checklist Wrapping Up a Semester

Some useful online tools for organizing learning/teaching in groups

- External Link to Google docs for collaborative writing
- External Link to Wikipedia use in teaching
